Dear Independence Academy Charter School Families,

In an effort to better serve our students and their families, we have partnered with Individual Matters and Dr. Katrina Katen, Psy.D and Isa Wright, (Psy.D candidate), to help us support the emotional, social and academic development of students. They will be in our building starting Tuesday, August 27, 2019 to get to know staff, students, and the IACS community. In addition to providing support to our students at school, Dr. Katen and Ms. Wright will also be offering workshops for parents, and training for educators to help us all work together to better meet the evergrowing and changing needs of the students here at Independence Academy Charter School. Please help me in welcoming them to Independence Academy!

If there are any questions or concerns, please feel free to contact me via email or by phone.

Thank you,

Lisa Gonsalves
Interim Executive Director
Independence Academy Charter School
